

## CHILD SAFE ENVIRONMENTS POLICY

# CHILD SAFE ENVIRONMENTS POLICY

---

### SCOPE OF APPLICATION

This policy is applicable to the following entities:  
Cedar College (*the College*)

For the purpose of this document, individuals including employed staff, work placement students, students, volunteers, TRTs and contract workers at Cedar College, will collectively be known as Staff, Worker or Student.

**All staff/workers must sign the Code of Conduct, thereby acknowledging their agreement with the details specified within this policy.**

### PURPOSE

This policy describes Cedar College's child safe environment practices. Cedar College acknowledges that every child has the right to be safe from harm at all times. Child safe environments are paramount to schools which are required to provide safe physical and online environments. Schools are required to implement appropriate Policies and Procedures to establish and maintain child safe environments. These must be regularly reviewed and updated.

### COMMUNICATION

This Child Safe Environment and related documents are provided to all workers as part of their induction. Additionally, the policy is accessible on the Cedar College website for parents, caregivers and students, and any updates, whether prompted by the school or legislative modifications, are promptly reflected. The College is committed to integrating child-safe environments into the school's curriculum to ensure the safety and well-being of every child.

In addition:

- Cedar College encourages and respects the views of children and young people and involves them in decision making as appropriate.
- Cedar College is committed to educating children and young people through the Keeping Safe: Child Protection Curriculum (KS: CPC) from R-10. This provides developmentally appropriate explanations to children and young people including their right to safety, their right to be listened to and that they can provide feedback or make a complaint if they have a concern, personally, or through a worker/parent/caregiver to do this on their behalf.
- The KS:CPC educates children and young people on what harm is and develops their understanding of protective practices across all year levels.
- Primary students have and are introduced to clear infographics in their classrooms to direct them to who their safe people are.
- Student Leaders meet with their classes where concerns can be raised as needed and communicated back to staff.
- Student Leadership across the High School meet regularly with staff to communicate concerns as needed.
- High School students are introduced to staff (and where they can be found), who can listen to them and advocate on their behalf at the beginning of each school year. All new students to the High School meet with a member of the Cedar Care team when they begin at the College.

### REPORTING & RESPONDING TO GENERAL COMPLAINTS AND FEEDBACK

This section does not include information regarding harm or risk of harm to children or young people.

Providing opportunities for complaints and feedback ensures that children, young people and their families feel valued and respected and enables us to improve the quality of our service. Parents/caregivers, children, and young people have the option to express compliments, complaints, or feedback verbally or in writing to any staff member, and their input will be addressed promptly, sensitively, and fairly.

As mentioned above, each student is provided with clear information about whom they can approach for any concerns or needs. This guidance is emphasised both at the beginning of the school year and consistently reinforced during year-level meetings throughout the academic year.

To establish communication channels, students and their families are personally invited to provide feedback or make a complaint within two weeks of beginning school.

Compliments, complaints, or feedback can also be provided verbally or in writing to [admin@cedarcollege.sa.edu.au](mailto:admin@cedarcollege.sa.edu.au), or via the relevant front office, by phoning 8261 3377.

The College will deal with all complaints and feedback received from children, young people, or their families promptly, sensitively, and fairly. We will be guided by the following principles:

- We will listen to the complaints/feedback.
- The person receiving the complaint will make a record of it if received verbally.
- We will advise of the time expected for an outcome.
- If a worker receives a complaint, they must forward it to Leadership as soon as possible.
- Leadership (or delegate) will respond to the complainant with an outcome as soon as is practicable (as a matter of priority).
- We will clearly document and securely store decisions and actions taken in response to complaints and feedback.
- We will make sure that procedural fairness is followed at all times.

If a parent or caregiver does not agree with the outcome of the complaints process, they may refer to the Parent/Caregiver compliments and complaints policy on the College website for further instruction.

## BACKGROUND

Cedar College believes that creating child safe environment is a dynamic process that involves active participation and responsibility by all sectors of the school community. Sharing responsibility for the care and protection of children helps to develop a stronger, more child-focused community.

Cedar College is committed to the safety of children and young people, and will ensure:

- that children and young people are valued, respected and encouraged to participate and that the safety and protection of children is always the first priority;
- compliance with the Children and Young People (Safety) Act 2017, Child Safety (Prohibited Persons) Act 2016 and the National Principles for Child Safe Organisations;
- bullying and harassment are not tolerated; and
- information about services that can assist children and young people is displayed in areas accessible to children and young people.

*Child Safe Environments: [National Principles for Child Safe Organisations](#)*

which states that a child safe organisation:

- takes a preventative, proactive and participatory stance on child safe environment issues where the safety and wellbeing of children is the paramount consideration when developing activities, policies and management practices;
- is one that values and embraces the opinions and views of children;
- encourages and assists children to build skills that will assist them to participate in society; and
- takes action to protect children from physical, sexual, emotional, and psychological harm or risk of harm.

## STATEMENT OF INTENT

Cedar College is committed to the safety and wellbeing of children and young people. The College acknowledges that being safe and supported at school is essential for student wellbeing, development, and effective learning. The safety and wellbeing of our children are paramount considerations in all that we do. We acknowledge the vulnerability of children and young people in our care and take a proactive, preventative, and participatory approach to protecting them through:

- the ongoing development of a positive, child safe culture;
- the development, implementation, and monitoring of rigorous policies and procedures;
- seeking to ensure that everyone is aware of their responsibilities, vigilant and, if required, prepared to respond in an appropriate and timely manner.

The College acknowledges that the whole school community has a responsibility to uphold these values.

## LEGAL OBLIGATIONS

Cedar College is committed to promoting the safety, wellbeing and participation of children and young people.

This includes:

- A commitment to:
  - a) supporting mandatory notifiers to report and respond to children and young people at risk of harm as outlined in the mandatory notification section;
  - b) ensuring safe environments for children and young people are maintained; and
  - c) lodging a Child Safe Environments Compliance Statement with the SA Department of Human Services.

## RESPONSIBILITIES

Maintaining a child safe environment is the responsibility of the Board, the Principal and of all staff members. The School Board has the overarching responsibility for maintaining a child safe environment. At a school level, staff members have different responsibilities, including requirements relating to mandatory reporting, as outlined below:

### The Principal:

The Principal is responsible for the following:

- promoting child safe environments wherever possible, and ensuring that child safe environment is included regularly in staff training;
- ensuring that child safe environments is included in the school's curriculum;
- when a mandatory report has been made, assisting staff to complete site documentation, and then sign the mandatory notification record and ensure this is stored appropriately;
- ensuring that students and staff receive adequate support if involved in a harm or risk of harm situation;
- ensuring that staff are supported when making a mandatory report; and
- ensuring that staff and workers have current, not prohibited Working with Children Check and RRHAN-EC training and that third parties have current, not prohibited Working with Children Checks where required.

### Staff:

All staff of Cedar College are responsible for the following:

- reporting any suspected harm or risk of harm to children and young people to the Child Abuse Report Line (CARL) on 13 14 78, or making an online report for non-urgent cases;
- advising the Principal when a report is being/has been made (unless the report involves the Principal in which case it should be reported to the Board Chair);
- notify South Australian Police (SAPOL) 000 if a child or young person is at immediate risk of harm;
- taking action if children and young people have disclosed information about inappropriate behaviours of other adults; and
- in the event that a staff member observes the behaviour of another staff member, deeming it to be in violation of the child safe environments policy, they are legally obligated to report to CARL or SA Police as above or if it doesn't relate to harm or risk of harm to a child or young person, promptly alert the Principal or a senior staff member, even if they are uncertain whether the action constitutes a violation.

## CODE OF CONDUCT, PROFESSIONAL BOUNDARIES AND EXPECTATIONS OF STAFF AND WORKERS

Cedar College has developed a Child Safe Environment Code of Conduct to specify standards of conduct and care, professional boundaries, ethical behaviour and unacceptable behaviour when working and interacting with children. This is based on information outlined in the Protective Practices for

staff in their interactions with children and young people guidelines. The aim is to provide guidance to staff on how best to support students, and how to avoid or manage difficult situations. When a suspected breach has occurred an individual must put in writing to the Principal the circumstance and people involved and ensure that acknowledgement of the communication is received. The Code of Conduct is applicable to all staff and workers. Violations of the Code may lead to disciplinary action or, in cases of serious breaches, dismissal. The Code of Conduct is accessible to all staff, workers, parents/caregivers through our internal policy filing system on the Staff Portal and externally via the Cedar College website.

#### **Compulsory Behaviour:**

- staff and workers must comply with the school's Child Safe Environment Policy;
- staff and workers must behave as a positive role model to students;
- staff and workers must promote the safety, welfare and wellbeing of students;
- staff and workers must promote the safety, participation and empowerment of students with a disability;
- suspicions of harm or risk of harm to children or young people must be reported to the Child Abuse Report Line (CARL – 13 14 78) and to the Principal, or to the Board Chair if the situation involves the Principal;
- concerning behaviour, breaches of the Code of Conduct or Protective Practices guidelines must be reported to the Principal, or to the Board Chair if the breach concerns the Principal. The Principal (or other person) will be responsible for developing an appropriate plan of action and ensuring it is followed;
- students must be treated with respect and encouraged to speak up and participate in matters affecting them;
- actions must be undertaken transparently and with the knowledge and consent of the Principal;
- when working one-on-one with children and young people, actions must be:
  - a) **Public** – ensure the environment is visible, public and busy. Use the site's authorised ICT systems;
  - b) **Authorised** – parents./caregivers must be informed and have given consent and the activity must be authorised by the Principal;
  - c) **Timely** – the activity must be a legitimate part of your role, support must be provided within normal work hours where possible, and sessions should be concise and not unnecessarily prolonged; and
  - d) **Purposeful** – the activity should address or be linked to an identified wellbeing and/or learning need of the child or young person;
- manage challenging behaviour through non-physical intervention, such as directing other children and young people to move away from the situation, talking to the child, directing the child or young person to a safe place, and directing other children to a safe place. Physical restraint should only be used as a last resort and must only be used when the safety of a child or young person or adult is threatened. Physical restraint must not be used as a response to property destruction, disruption to the education or care activity, refusal to comply, verbal threats, leaving an education care setting, or a need to maintain good order unless someone's safety is clearly threatened;
- become as familiar as possible with the values of various cultural groups enrolled in an education or care site, as different cultures have different attitudes and traditions surrounding the concept of appropriate touch; and
- ensure that the privacy of students is respected, and that personal information is managed in accordance with the school's Privacy Policy.

#### **Unacceptable Behaviour:**

- failure to act when an allegation of harm or risk of harm or children or young people is made, including failure to report the allegation;
- failure to intervene in situations where sexual harassment is occurring;
- inappropriate comments about a child or young person's appearance, including excessively flattering comments;
- inappropriate comments, conversations or enquiries of a sexual nature;
- use of inappropriate nicknames;
- obscene gestures and/or language;
- jokes or innuendo of a sexual nature;
- facilitating/permitting access to pornographic material;
- facilitating/permitting access to sexually explicit material that is not part of an endorsed curriculum;
- correspondence of a personal nature via any medium (including phone, text message, letters, email, social media, internet posts) that is unrelated to the staff member's role. This does not include class cards or bereavement cards;
- discussing personal lifestyle details or opinions of self, other staff or children and young people unless directly relevant to the learning topic and with the individual's consent;

- corporal punishment (for example, physical discipline or smacking);
- inappropriate use of physical restraint/restrictive practices;
- unwarranted or unwanted touching of a child or young person personally or with objects (for example, pencil or ruler);
- initiating, permitting or requesting inappropriate or unnecessary physical contact with a child or young person (for example, massage, kisses, tickling games) or facilitating situations that unnecessarily result in close physical contact with a child or young person (see below for "Acceptable Touch");
- inviting/allowing/encouraging children and young people to attend your home (see below for "Attendance at Homes or Social Gatherings");
- attending children and young people's homes or their social gatherings (see below for "Attendance at Homes or Social Gatherings");
- being alone with a child or young person outside your responsibilities;
- entering change rooms or toilets occupied by children or young people when supervision is not required or appropriate;
- transporting a child or young person unaccompanied;
- using toilet facilities allocated to children and young people. Where separate toilet facilities are not available for staff, it is permissible to enter once certain that no students are inside nor will enter during use;
- undressing using facilities allocated to children and young people, or in their presence;
- tutoring outside The College's directions or knowledge;
- giving personal gifts or special favours;
- singling the same children and young people out for special duties and responsibilities;
- privately giving money and/or gifts to individual children/young people;
- photographing, audio recording or filming children or young people via any medium when not authorised by the site leader to do so and without required parental/caregiver consent;
- using personal rather than school equipment (such as filming or recording devices) for approved activities, unless authorised by the site leader to do so;
- correspondence or communication (via any medium) to or from children and young people where a violation of professional boundaries is indicated and where the correspondence has not been provided to the Principal/leader via the staff member;
- still/moving images or audio recordings of children and young people on personal equipment or kept in personal locations such as car or home that have not been authorised by the Principal;
- uploading or publishing still/moving images or audio recordings of children and young people to any location, without parental/caregivers and site leader's consent;
- creating or using private chat rooms;
- filming/recording students for the use of behaviour training/modification without obtaining prior permission from the Principal and parents/caregiver; and
- following a student's personal social media account or allowing them to follow your personal social media account.

## ACCEPTABLE TOUCH

Staff and workers should work hard to create and model a culture where acceptable touch is known. However, even non-intrusive touch may be inappropriate if a child or young person indicates they do not wish to be touched.

Acceptable touch and physical contact may include:

- providing students with technical assistance in practical subjects, such as touching the arm, hand, upper back or shoulder, for example. *Verbal permission must be gained from the student prior and personal space respected;*
- non-intrusive gestures such as high fives, shaking hands, and a brief congratulatory and gentle pat on the shoulder or upper back, where warranted. These can be promoted to students in place of more intrusive actions such as spontaneous hugging;
- assisting with the toileting and personal care needs of a student with a disability (an individual plan for students with these needs must have been negotiated with parents/caregiver);
- providing First Aid; and
- supporting a child who has hurt themselves.

## ATTENDANCE AT HOMES OR SOCIAL GATHERINGS

The purpose of attendance is key to determining whether it is appropriate. In most cases, if it is a parent-to-parent social/church/sporting visit/event or a student-to-student visit with parental supervision it would be considered acceptable:

- “Social contact should be generated via the relationship the staff member has with the parents/caregiver of children and young people or by an event. Avoid being alone with Children and Young People in these situations” P.11 – *Protective Practices guidelines 2nd ed.*

In all other cases, a staff member or volunteer is never to invite/allow/encourage a child or young person to attend their home, nor are they to attend a child or young person’s home or social gathering. For advice on individual circumstances that are not clearly covered by these principles, the Principal or relevant Head must be consulted.

As mentioned previously, the key in all situations is to make any interactions with a child or young person public, authorised, timely and purposeful. In every circumstance where the above scenarios occur, the staff member or volunteer should recognise that they are first and foremost an employee or volunteer of The College, understand the level of risk as a staff member or volunteer in this scenario and apply the protective practices guidelines at all times. The staff member or volunteer should also conduct themselves in a way that does not bring into question their suitability to work or volunteer with children and young people in our community, and workplace matters should not be discussed on these occasions. All other “Compulsory Behaviours” and “Unacceptable Behaviours” listed above, still apply in these circumstances

In every circumstance where the above scenarios occur, the staff member or worker should recognise that they are first and foremost a staff member or worker of The College, understand the level of risk as a staff member or worker in this scenario and apply the protective practices guidelines at all times. The staff member or worker should also conduct themselves in a way that does not bring into question their suitability to work or volunteer with children and young people in our community, and workplace matters should not be discussed on these occasions. All other “Compulsory Behaviours” and “Unacceptable Behaviours” listed above, still apply in these circumstances.

*The following questions may help staff recognise when professional and/or legal boundaries are at risk of being breached:*

- Am I dealing in a different manner with a particular child or young person than with others under the same circumstances?
- Is my dress/availability/language/demeanour different from the normal with a particular child or young person?
- Would I modify my behaviour with a child or young person if a colleague were present?
- Would I judge my conduct negatively if I observed it in another adult?
- Is it possible that the consequences of my actions will have negative outcomes for children and young people?
- Is it possible that the consequences of my actions will negatively affect people’s confidence in my suitability to work with children and young people?

If an honest answer to any of the above questions is ‘yes’, then a staff member must alter their behaviour immediately and consider seeking professional support or counsel.” P.9 – *Protective Practices guidelines 2nd ed.*

Any concern a staff member has about whether or not a situation may be compromising or breaching a professional relationship should be discussed with the Principal or delegate and an approved plan of action followed. For example, a staff member may want advice about transporting a friend’s child to and from the site or how to manage their own child’s enrolment.

For any further guidelines, staff and workers should refer to “Protective Practices for Staff in their Interactions with Children and Young People” 2nd edition, specifically pages 9 & 11.

## GRADUATE OR FORMER STUDENTS

The acceptable and unacceptable behaviours outlined above apply to any interactions with students who have graduated from Cedar College, or have been former students of Cedar College until both the following two dates occur:

- The first day of school in the year following their Year 12 graduation; and
- The former student has turned 18 (ie. the former student is a legal adult).

## RECRUITMENT, SELECTION, SCREENING & BACKGROUND CHECKS

Cedar College will ensure that all staff and workers meet the requirements of the Child Safety (Prohibited Persons) Act 2016, which requires that all staff/workers have a current, not prohibited Working with Children Check (WWCC), which is registered with the DHS screening unit and will verify the accuracy of the WWCC before employing workers to work with children and young people. For existing staff/workers, the College will verify they renew their WWCC every 5 years, and the status remains as not prohibited.

Cedar College is registered with the DHS Screening Unit, and we link all Working with Children Checks. We will immediately contact the Department of Human Services Screening Unit when we become aware of certain information regarding any person involved with our organisation, including any serious criminal offence, child protection information, or disciplinary or misconduct information.

In order to thoroughly screen and assess potential staff and workers, Cedar College will also conduct background checks and risk assessments.

This may involve:

- Undertaking face-to-face interviews;
- Confirming qualifications;
- Requesting referee reports and obtaining reference checks;
- National Police Check; and/or
- Undertaking other background checks (for example, psychological testing, or on the job observation)

A Volunteer Application Form must be submitted in order to be a volunteer/worker at the College. This form requires volunteers/workers to submit to the College:

- A Working With Children Check;
- RRHAN-EC Certificate; and
- Protective Practices Certificate.

They must also declare that they will:

- Abide by the Volunteer Code of Conduct, and Child Safe Environment Code of Conduct;
- Finish training by 4pm if they do not have a current First Aid certificate (the school nurses are on site until 4pm); and
- Declare their appropriateness to work with children based on previous work or any criminal history.

All adults (18 years and over) who live on the school site, including the children of staff, must hold a current, not prohibited Working with Children Check.

## **RISK MANAGEMENT**

To help maintain a safe environment for children and young people, Cedar College will review its risks regularly and implement strategies to minimise and manage these risks.

## **MANDATORY REPORTING**

All staff and workers must undertake the appropriate RRHAN-EC (Responding to Risks, Harm and Neglect –Education Certificate) course relevant to their role and refresh this every 3 years to maintain their currency.

Mandated notifiers in our organisation are workers who:

- Provide services to children and young people.
- Hold a management position in the organisation the duties of which include direct responsibility for, or direct supervision of, the provision of those services to children and young people.

Mandated notifiers have a legal obligation to notify the Child Abuse Report Line (CARL) on 13 14 78 as soon as practicable if they have a reasonable belief that a child or young person is or may be at risk of harm. If the child or young person is at immediate risk, report to South Australia Police (SAPOL) on 000. In cases involving Aboriginal children and young people, support is provided by Yaitya Tirramangkotti - an Aboriginal team, via the CARL number.

Even if not a mandated reporter, any person can report harm or risk of harm to a child or young person. The individual who identifies the harm or risk of harm is encouraged to make the report to authorities and can request the support from another worker to do so if required.

All serious concerns of suspected harm or risk of harm to children or young people must be reported via CARL by phoning 13 14 78. The telephone line is available 24 hours a day. Serious concerns include the suspicion that a child or infant is in imminent or immediate danger of serious harm or serious injury or is experiencing chronic neglect. The following information is required to be provided when making a report to CARL:

- The child's name, age, date of birth and address;
- A description of the injury, and/or harm (current and previous);
- The child's current situation;
- The location of the child, parent or caregiver and alleged perpetrator; and
- When and how you found out about the harm or risk of harm.

Non-serious concerns can be reported via eCARL, which is the online Child reporting system.

Cedar College will maintain records of all mandated reports made. The College Mandatory Report form must be used and all completed forms and associated notes, including if reports were made online or by phone, must be provided for the Principal and will be stored in the Principal's office. A relevant member of the Leadership team (Head of School and Director of relevant Sub-School) must also be aware of the report, and an electronic entry on the student's Pastoral Care record made (no details, just that a report has been made).

Cedar College will ensure that adequate support is provided to the students involved. If the student is already connected with Cedar Care, then the relevant Cedar Care staff member must be notified by the Leadership Team member and offer support to the affected student. If the student has not seen Cedar Care before, then the offer to see Cedar Care should be made to the student. Any other staff notified in order to support the student will be on a need-to-know basis as determined by the Principal.

It is a requirement that staff and workers inform the Principal of any mandatory notifications made. This will ensure that the Principal can take the appropriate action to support the child. If the concerns or allegations raised in the notification involve the Principal, then the Board Chair must be informed instead.

## **FAILURE TO REPORT**

*The Statutes Amendment (Child Sexual Abuse) Act 2021* established criminal offences of:

1. Failure to report child sexual abuse: a prescribed person is guilty of an offence if they fail to report to police that they know or suspect that another person (the abuser) is a staff member, or worker of Cedar College and is, has, or is likely to sexually abuse a child; and
2. Failure to protect a child from sexual abuse: a prescribed person is guilty of an offence if they know there is a substantial risk that another person, who is also a staff member or worker, will engage in the sexual abuse of a child; and the prescribed person has the power or responsibility to reduce or remove that risk but negligently fails to do so.

These offences carry a penalty of imprisonment. All Cedar College staff and workers must understand their legal obligations.

The offences have been created because the Royal Commission into Institutional Responses to Child Sexual Abuse found that historically institutions working with children under-reported suspicions of child sexual abuse to police when a staff member was involved.

If a worker is reported to CARL or SAPOL the College will support the child or young person by:

- staff member or worker will be removed from any role that has contact with any child, or young person until authorities conclude their investigation; and
- referring the child, young person and their family to other appropriate services; and
- continuing to provide a service to the child, young person and their family and monitor their circumstances; and
- the College will document all information received regarding the report and store this securely in a separate file.

## **BILETING, HOMESTAY OR BOARDING HOUSES**

In the case where billeting, homestay or boarding houses are required in the life of the College, this policy will be updated to address that need.

## **VULNERABLE STUDENTS**

Cedar College acknowledges that there are vulnerable students who may be at a higher risk of experiencing harm or risk of harm due to their circumstances. These students may struggle with advocating for themselves or communicating their experiences to other people. Vulnerable students include students with disabilities, students in care and new arrival students. Cedar College will ensure that:

- School staff will consult with a student with a disability, their parent/caregiver and/or other associates (such as external allied health professionals). During consultation, staff will discuss the impact of the disability to assess the student's ability to advocate for themselves;
- Staff will be mindful of the individual circumstances of vulnerable students and will be mindful of the potential signs of harm or risk of harm or children or young people that vulnerable students may exhibit; and
- Individual student needs and circumstances will be considered when teaching the Child Safe Environment and Protection curriculum. This includes being mindful of and sensitive to cultural differences.

## CURRICULUM

Cedar College recognises the importance of addressing matters raised in the Keeping Safe: Child Safe Environments Curriculum (KS:CPC). The two main themes of the KS:CPC are 'we all have the right to be safe' and 'we can help ourselves to be safe by talking to people we trust'.

The KS:CPC fits primarily within the Health and Physical Education learning area of the Australian Curriculum and will be implemented in the following ways:

- In the Junior Primary year levels, the Health teacher completes this program with students during Health lessons.
- In the Upper Primary year levels, classroom teachers complete the Child Safe Environments Curriculum with students during a unit of work in Term 3.
- In the High School, Year 7-9 Child Safe Environments Curriculum content is covered in a specific unit of work with Year 8 students during Health lessons. The Year 10-12 Child Safe Environments Curriculum is covered within a specific unit of work with Year 10 students during Health lessons.

In addition, Cedar College is committed to ensuring that the curriculum addresses student agency where children and young people are informed about their rights, participate in decisions affecting them and are taken seriously.

## ONLINE SAFETY

Cedar College acknowledges and accepts its responsibility to ensure that children are protected from harm when participating online.

Cedar College is committed to following the requirements outlined in the 'Responding to Online Safety Incidents in South Australian Schools Guideline'. Cedar College is committed to creating a safer online environment by:

- Utilising Enterprise Grade hardware and software that enables:
  - a) Internet Usage Reporting, providing student search information to Coordinators;
  - b) cyber welfare system alerting leadership staff to events such as bullying, self-harm, drug use and sexual harassment. (Saasyan);
  - c) A secure web filtering program that incorporates a strict internet access criterion, that works in conjunction with Google Safe Search.
- Providing a Year 7, Year 10 and New Students Laptop Use & Care induction and revision program.

Cedar College has developed Acceptable Use of Information and Communication Technologies for Staff/Students Policies, a Social Media Policy and a Student Anti-Bullying and Harassment Policy. These documents also address online safety. The Child Safe Environments Curriculum that students complete also addresses elements of online safety, and the strategies that students can put in place to remain safe online.

## POLICY REVIEW

Cedar College's Child Safe Environment Policy and Procedures will be reviewed and updated every 3 years. The Child Safe Environment Policy and Procedures will also be reviewed and updated when the school:

- Expands the services it offers to children and young people;
- Undergoes a substantial change to the responsible or managing authority; or
- Experiences an event or incident where children or young people were or could have been at risk of harm.

When changes are made to the Child Safe Environment Policy, Cedar College will relodge its Compliance Statement with the SA Department of Human Services.
