This year you will notice the students have less workbooks. This is a part of their transition to Middle School in 2025. Please label things as per the table above.

Students will receive new pencils & pens at the start of each term, and a new glue stick, eraser and coloured pencils at the start of term 3. Students will also be provided with further exercise books as needed during the year.

Students are responsible for their own books and stationery and need to ensure they are kept in appropriate condition.

Thank you, I am looking forward to the year together.
